

Maple Ridge Survey Results

Party/Affiliation	Candidate	Will you, in principle support compact, mixed-use development with high quality active transportation infrastructure within the urban containment boundary??	Will you oppose low density, car-dependent suburban development proposals outside the urban containment boundary?	Are you committed to working towards the transformation of our neighbourhoods into 15-minute neighbourhoods?	In the coming decades, Maple Ridge's Town Centre and the Lougheed Transit Corridor will see significant densification. Do you agree that this gives us great opportunities to get people out of their cars?
